The Honorable President
Members of the Board of Trustees
Village of Algonquin, Illinois
2200 Harnish Drive
Algonquin, Illinois 60102

Ladies and Gentlemen:

As part of our audit process we are required to have certain communications with those charged with governance at the beginning of our audit process and at the conclusion of the audit. Those communications include information related to the planned scope and timing of our audit, as well as other information required by auditing standards. Our communication at the beginning of our audit process was sent to you in May 2023.

Auditing standards require the communication of internal control related matters to those charged with governance. Our communication of these matters, as well as a listing of future pronouncements that may affect the Village, are enclosed within this document.

This information is intended solely for the use of the President, Board of Trustees and management of the Village of Algonquin, Illinois and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Sikich LLP

Sikich LLP

November 15, 2023

The Honorable President
Members of the Board of Trustees
Village of Algonquin, Illinois

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Algonquin, Illinois (the Village) for the year ended February 28, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Village are described in Note 1 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during the year ended April 30, 2023, with the exception of the implementation of GASB Statement No. 87, *Leases*. We noted no transactions entered into by the Village during the year for which there is a lack of authoritative guidance or consensus.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We noted no particularly sensitive estimates made by management during our audit of the financial statements, except for the actuarial assumptions related to the Illinois Municipal Retirement Fund and the Police Pension Fund total pension liability and the other postemployment benefit total OPEB liability.

Management's estimate of the Village's total pension liabilities and total OPEB liability are based on various actuarially determined amounts, including estimated investment returns, dates of employee retirement, discount rates, healthcare trend rates, and mortality rates. We evaluated key factors and assumptions used to develop the management's estimates of the Village's total pension liabilities and total OPEB liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. We noted no particularly sensitive disclosures affecting the financial statements.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected any such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 15, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Village's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Village's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to Management's Discussion and Analysis and the Required Supplementary Information as listed in the table of contents. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Combining and Individual Fund Financial Statements and Schedules, which accompany the basic financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the basic financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves.

We were not engaged to report on the introductory and statistical sections as listed in the table of contents, which accompany the basic financial statements but are not RSI. We did not audit or perform other procedures on this other information, and we do not express an opinion or provide any assurance on it. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Our procedures did not identify any material inconsistencies with the basic financial statements.

Restriction on Use

This information is intended solely for the use of President, Board of Trustees and management of the Village of Algonquin and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely,

Sikich LLP

**COMMUNICATION OF DEFICIENCIES
IN INTERNAL CONTROL AND
OTHER COMMENTS TO MANAGEMENT**

April 30, 2023

1415 West Diehl Road, Suite 400
Naperville, IL 60563

SIKICH.COM

COMMUNICATION OF DEFICIENCIES IN INTERNAL CONTROL AND OTHER COMMENTS TO MANAGEMENT

The Honorable President
Members of the Board of Trustees
Village of Algonquin, Illinois

As part of the annual audit, we are required to communicate internal control matters that we classify as significant deficiencies and material weaknesses to those charged with governance. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

During our audit, we also identify certain matters which we communicate only to management. While many of these matters are operational in nature, they may include internal control deficiencies that do not meet the definition of a significant deficiency or material weakness. We have chosen to communicate these matters in this communication. We had no new comments during the fiscal year ended April 30, 2023.

We will review the status of any comments during our next audit engagement. This communication is intended solely for the information and use of the President, Board of Trustees and management of the Village and is not intended to be, and should not be, used by anyone other than these specified parties.

Sikich LLP

Naperville, Illinois
November 15, 2023

OTHER INFORMATION

Future Accounting Pronouncements

The Governmental Accounting Standards Board has issued a number of pronouncements that may impact the Village in the future.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* was issued to address tissues related to accounting and reporting for public-private and public-public partnership arrangements (PPPs). A PPP a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which is defined in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. This Statement is effective for fiscal years ending April 30, 2024.

GASB Statement No. 96, *Solution-Based Information Technology Arrangements*, provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. This Statement establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability, provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The requirements of this Statement are effective for fiscal years ending April 30, 2024.

GASB Statement No. 99, *Omnibus 2022*, addresses a variety of topics including: Classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument; clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives; clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public-public partnership (PPP) term and (b) recognition and measurement of installment

OTHER INFORMATION (Continued)

Future Accounting Pronouncements (Continued)

payments and the transfer of the underlying PPP asset; clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability; extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt; accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP); disclosures related to nonmonetary transactions; pledges of future revenues when resources are not received by the pledging government; clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statements; terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*; and terminology used in Statement 53 to refer to resource flows statements. This statement is effective upon issuance for requirements related to the extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63. The effective date for the requirements related to leases, PPPs, and SBITAs is April 30, 2024. The effective date for the requirement related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 is April 30, 2025.

GASB Statement No. 100, *Accounting Changes and Error Corrections—an Amendment of GASB Statement No. 62*, enhances accounting and financial reporting requirement for accounting changes and error corrections. This Statement defines *accounting changes* as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This Statement also addresses corrections of errors in previously issued financial statements. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. Furthermore, this Statement addresses how information that is affected by a change in accounting principle or error correction should be presented in required supplementary information (RSI) and supplementary information (SI). This Statement is effective for the fiscal year ended April 30, 2025.

OTHER INFORMATION (Continued)

Future Accounting Pronouncements (Continued)

GASB Statement No. 101, *Compensated Absences*, requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This Statement requires that a liability for certain types of compensated absences—including parental leave, military leave, and jury duty leave—not be recognized until the leave commences. This Statement also requires that a liability for specific types of compensated absences not be recognized until the leave is used. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee’s pay rate as of the date of the financial statements. With respect to financial statements prepared using the current financial resources measurement focus, this Statement requires that expenditures be recognized for the amount that normally would be liquidated with expendable available financial resources. This Statement amends the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as they identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences. This Statement is effective for the fiscal year ended April 30, 2025.

We will continue to advise the Village of any progress made by GASB in developing these and other future pronouncements that may have an impact on the financial position and changes in financial position of the Village.

Sikich LLP is a global company specializing in technology-enabled professional services.

Now with more than 1,600 employees, Sikich draws on a diverse portfolio of technology solutions to deliver transformative digital strategies and ranks as one of the largest CPA firms in the United States. From corporations and not-for-profits to state and local governments and federal agencies, Sikich clients utilize a broad spectrum of services and products to help them improve performance and achieve long-term, strategic goals.
