News from the Village of Algonquin

Winter 2017

Local Projects Selected for CMAP Assistance Program

The Chicago Metropolitan Agency for Planning (CMAP) board has approved 34 new projects to help local governments, nonprofits, and intergovernmental collaborators address issues at the intersections of transportation, land use, and quality of life. Several of the plans approved as part of the 2017 Program are multi-jurisdictional plans that bring communities together to work toward collaborative goals. Projects in which the Village of Algonquin will be involved in include:

1. The development of a regional bicycle and pedestrian program to be called the Regional Active Mobility Program (RAMP) with Aurora, Algonquin, Elgin, McHenry, Naperville, and South Elgin.
2. A land use sub-area plan along the Route 31 corridor between the villages of Algonquin and Cary.
3. A shared services plan for the McHenry County Council of Governments to streamline intergovernmental cooperation, increase efficiencies, and expand better and reliable services to residents.

For more information, please visit www.cmap.illinois.gov.

Improving regional bicycle and pedestrian connections is one of the areas the Village will focus its planning efforts with CMAP

Algonquin Recognized for Performance Management

The Village of Algonquin has been recognized for its performance management efforts with a Certificate of Achievement from the International City/County Management Association for the fifth consecutive year. Algonquin is among 19 jurisdictions receiving the honor this year. The certificate program assesses a local government's performance management program and encourages analysis of results by comparing to peers and gauging performance over time. Algonquin's performance management program aids in cost reduction, program prioritization, and quality improvement. It also encourages accountability and transparency. To view financial and operational reports developed with performance metrics and analytics, please visit our transparency portal at www.algonquin.org/transparency.

Longmeadow Parkway Update

The Longmeadow Parkway Corridor from Huntley/Boyer Road to White Chapel Lane is anticipated to be complete and opened to traffic by January 8, 2018 or sooner, weather permitting. During winter and spring 2018, additional work within this section will include laying asphalt surface course pavement on Randall Road and pavement striping, installation of permanent traffic signals at Randall Road and Sleepy Hollow Road, and completion of remaining landscaping work.

The Longmeadow Parkway Bridge Corridor is a tree-lined parkway and new Fox River bridge crossing with a landscaped median, approximately 5.6 miles in length, running from Huntley Road to IL Route 62. For complete project information, please visit www.co.kane.il.us/dot.

Sidewalk Snow Removal

With winter weather officially here, please remember that the Algonquin Municipal Code states that any person occupying and/or owning a property within the Village shall remove snow and ice accumulating on the adjoining sidewalks within 24 hours after any snowfall has ceased. If snow and ice cannot be removed, the surface shall be sanded or otherwise treated to lessen the hazard for pedestrians until weather permits removal.

Please remember that this code pertains to all front, back, and side area sidewalks that adjoin your property. **Snow should never be blown or shoveled into the public streets as it is prohibited by Village code.** Such placement of the snow may create a driving hazard for motorists, especially if the Village plows have already passed through the area. The Municipal Code is available online at www.algonquin.org.

Winter Parking Regulations

Don't forget that winter parking regulations are in effect and **parking is prohibited on any public street in the Village between the hours of 2:00 a.m. and 5:00 a.m.** The winter parking hours will be in effect until April 15, 2018. In addition, it is unlawful to park on the street after any snowfall of 2 inches or greater unless the street has been cleared of snow. The snowfall parking ban is in place for your safety and will remain in effect until snow removal operations have been completed. Violators will be issued tickets. Residents with special parking issues should contact the Algonquin Police Department at 847-658-4531 or submit an online request for overnight street parking at www.algonquin.org/police.

Holiday Lights Recycling

The Village of Algonquin will be offering holiday lights recycling through January 22 at the Ganek Municipal Center, 2200 Harnish Drive. A container for your unwanted lights will be available in the first floor lobby during normal business hours. Items that will be accepted include mini-lights, C7 lights, C9 lights, rope lights, LED lights, and extension cords of any length. Please be sure to remove all tinsel, garland, and other decoration items from the light sets before they are dropped off. Elgin Recyclers will recycle the light sets collected and help reduce waste sent to landfills.

The Algonquin Citizen newsletter is published by the Village of Algonquin as a public service for residents and businesses. The Village complies with the Americans with Disabilities Act (ADA). For assistance, call 847-658-2700. For additional information regarding this newsletter, contact Michael Kumbera, Assistant Village Manager, at 847-658-2700.

Adopt-a-Hydrant Program

Algonquin has over 2,200 fire hydrants in need of adoption. Winter storms often bury fire hydrants, making it difficult to locate quickly. It becomes impossible to keep all hydrants clear of snow in a timely manner, which costs firefighters valuable time to locate and access. By adopting a fire hydrant closest to your home or business and keeping it clear of snow, you can help to keep the community safer.

When maintaining a hydrant, a three-foot area should be cleared around the entire hydrant and a path shoveled from the roadway to the fire hydrant. This will allow fire department personnel to quickly locate the hydrant and obtain a water supply.

Thank you for keeping the fire hydrants clear of snow and the community safer! More information about the Adopt-a-Hydrant program is available online at www.algonquin.org/PublicWorks.

Holiday Hours

Village offices will be closed on 12/25, 12/26, and 1/1. Groot will operate on a holiday schedule the week of 12/25 and 1/1, with service being delayed by one day the entire week. Please visit www.algonquin.org for more information.

2018 Snowman Photo Contest

Build the best snowman in town this year! Get your family together and make a snowman during one of this year's snowfalls. After you have built your snowman, stand next to it and have someone take a picture.

Submit photos to recreation@algonquin.org (electronic photos only). Photos are due by March 9, 2018. Winners will be published in a future recreation guide and on our website.

For more information or to browse and register for recreation programs, please visit www.algonquin.org/recreation.

2017 Snowman Photo Contest Winner

Christmas Tree Collection

Groot will collect Christmas trees at no charge on your normal collection day throughout the month of January.

In order for a tree to be collected, it must be placed at the curb or the end of your driveway by 7:00 a.m. on your scheduled collection day. All lights and decorations must be removed. Trees should not be placed in plastic bags, and any trees over six (6) feet tall should be cut in half so one person can handle them. Also, trees should be placed on top of the snow. Trees buried under snow could result in Groot not collecting them. Please contact Groot Customer Service at 1-800-244-1977 with any refuse or recycling inquiries.
