

OLD TOWN ALGONQUIN STAGE 1C UTILITY PROJECT FACT SHEET

The Stage 1C Utility Project will kick off as soon as the temperatures permit. The Village will replace the water main and sanitary sewer infrastructure on North Main Street between Algonquin Road and Riverview Drive. This work is a continuation of planned improvements in the Old Town Algonquin district. The completed Stage I work included the reconstruction of South Main Street, new brick paver sidewalks, pedestrian seating areas, undergrounding of utilities, water main and sanitary sewer replacements.

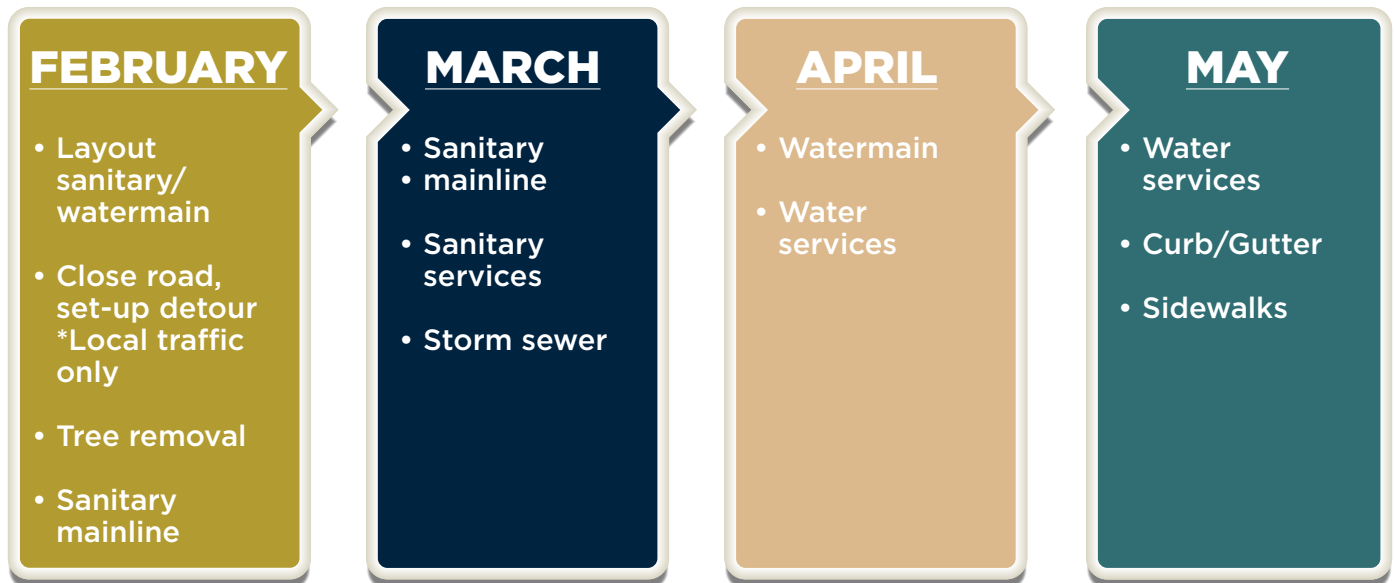

Project Benefits:

- New water main infrastructure
- New sanitary sewer infrastructure
- Lead service line removal up to water meter

Key Project Information:

- North Main Street will remain open to local traffic only
- Crews will begin locating utilities and marking pavement as the weather improves
- This phase of construction will be completed in 2019
- The project team will notify residents prior to any planned service disruption

Project Schedule

For questions or concerns contact project manager, Dan Crosson at (847) 417-4216.
