

CRACK FILL PROGRAM

September 6, 2019 – September 13, 2019

Starting Friday, Sept. 6, work will begin on various roadways across Algonquin to fill cracks in the pavement (weather permitting). This technique is used on roadways to seal any openings in the pavement to prevent water and ice from infiltrating the roadway, allowing the pavement to last longer. Flaggers will be onsite to safely allow traffic to pass through the work zones. The target completion date for work on the following roads is Sept. 13:

- 1.) Par Drive, Reserve Drive and Kingsmill Court
- 2.) Stonegate Road from Sawmill Lane to County Line Road
- 3.) Edgewood Drive from Hanson Road to County Line Road
- 4.) Harper Drive from Edgewood Drive to the end of the roadway
- 5.) Highland Avenue from Tanglewood Court east to the Village limits
- 6.) The streets around Tanglewood Drive, Timberwood Lane, Powder Horn Drive and Applewood Lane
- 7.) Countryside Drive from IL 62 to Tanglewood Court
- 8.) Ivy Lane, Redwood Drive, Crab Tree Lane, Magnolia Drive, Periwinkle Lane and Buckthorn Drive
