

20 East Washington Municipal Parking Area

Project Information

This project will transform the property located at South Harrison Street and Washington Street into a parking area to create additional parking accommodations for community members. The project involves the demolition of the existing structure to allow for the construction of the new parking area. Drainage improvements will also be implemented during the project. In conjunction with this project, the Village is also proposing the resurfacing of the existing municipal lot on Washington Street.

Project Schedule

(Weather Permitting)

- Status: In Progress
- Start: Spring 2021
- Completion: Fall 2021

Project Details

- Drainage improvements
- New parking spaces
