SURVEY INSTRUMENT

Survey Instrument – Page 1	109
Survey Instrument – Page 2	110

This report consists of the results from the eighth annual Algonquin Community Survey which was conducted in 2021. Goals of the survey are to evaluate municipal services and resident's perceptions of the community, identify trends, and develop strategies for future service delivery.

Project information and historic reports are available at: www.algonquin.org/survey.

Project Summary

In September 2021, the Algonquin Community Survey was sent to randomly selected households in the community. Village staff was responsible for designing, administering, tabulating, and reporting the results of the Algonquin Community Survey. All Village department heads were given an opportunity to review draft versions. Every year, the Algonquin Community Survey instrument is reviewed and evaluated to determine any necessary modifications in the survey format needed to accurately capture resident opinions, while maintaining its integrity for meaningful year-to-year analysis.

The three-page survey was mailed to 1,750 randomly selected households on September 24, 2021. Households were given 22 days to complete and return the survey. During the fall months of 2021, staff entered raw data into Microsoft Excel. Following entry into Excel, data was analyzed and various cross-tabulations were performed. Cross-tabulations allow users the ability to "drill down" within the results to see how certain segments of the population responded. For example, results can be broken down by age, gender, location of household, and length of residency. This information is useful in identifying underlying trends.

The survey instrument is also available for residents to complete online. Residents that received survey instruments were also given unique identifiers that allowed them to access the survey. The results from the online version were formatted such that they aligned with the questions

and answers in the mailed survey instrument. The feedback from both surveys is combined for calculations.

Margin of Error

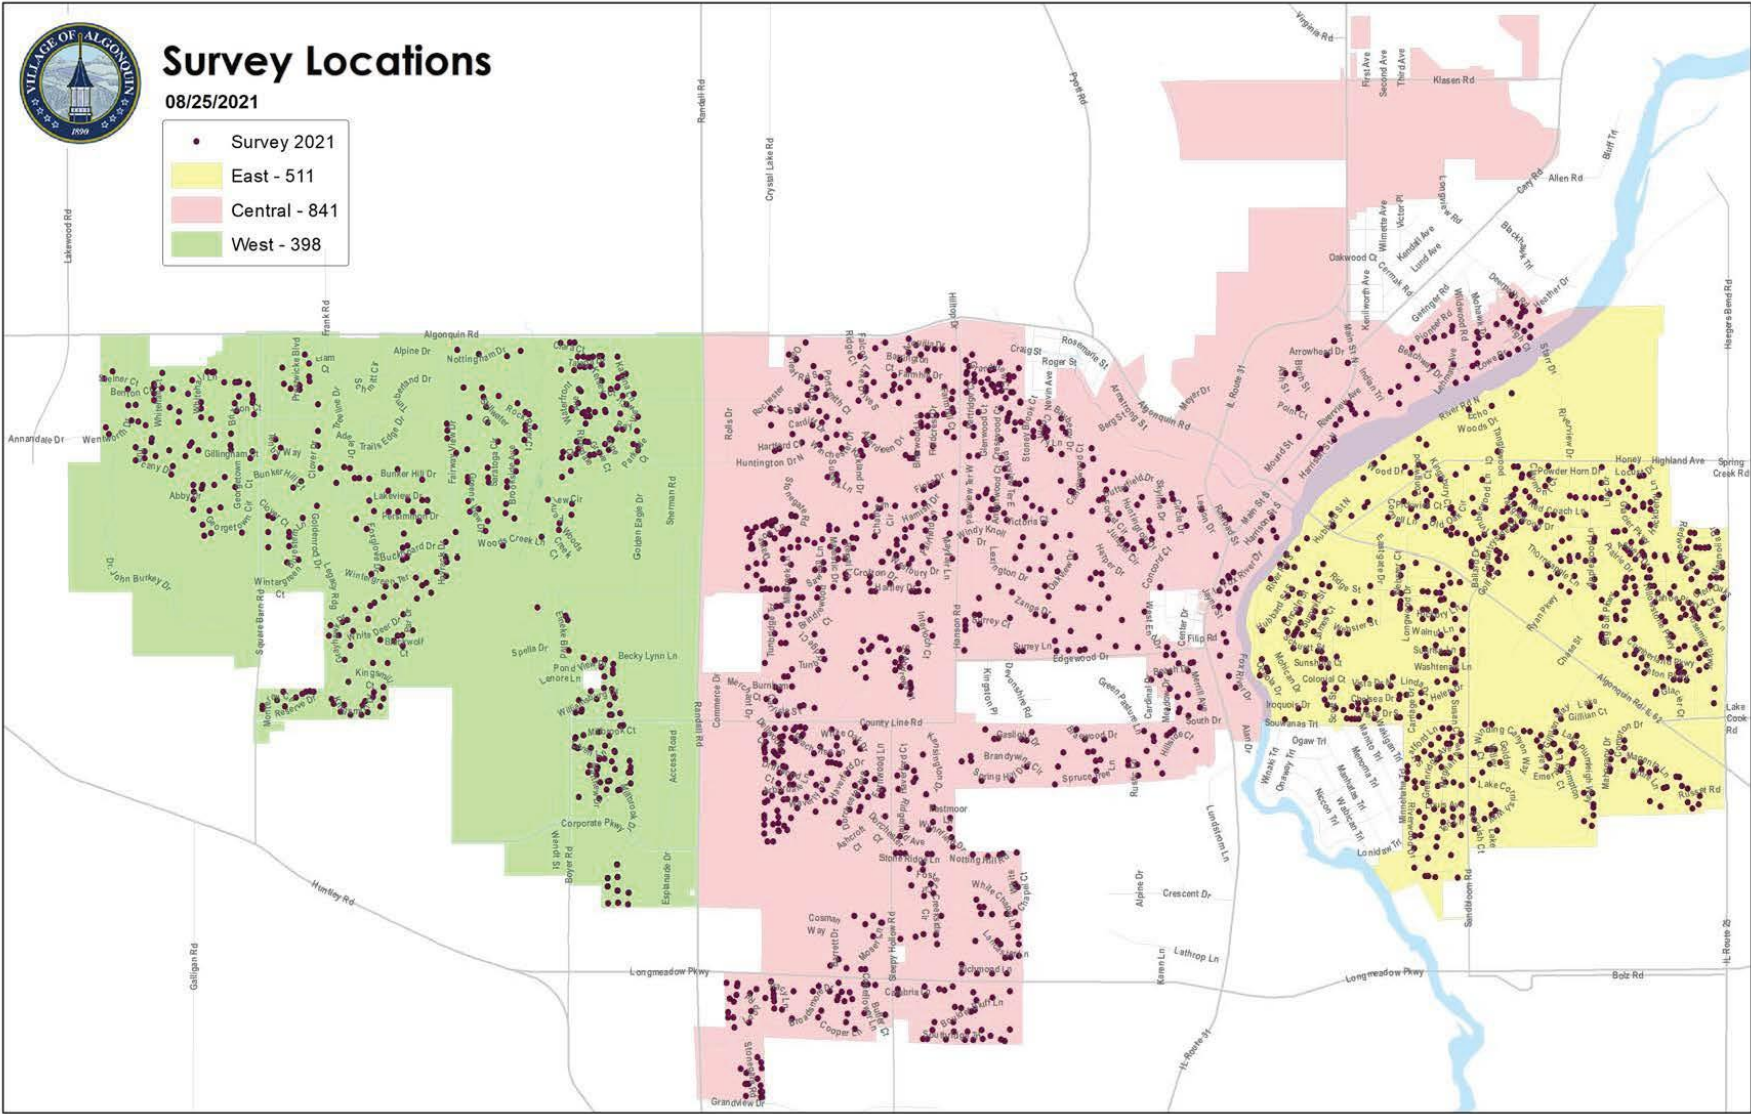

The Algonquin Community Survey was conducted with a 90% confidence level and a margin of error of 5.5%, plus or minus. Based on the survey responses received, 90% of the time, the results of a survey should differ by not more than 5.5% in either direction from what would have been obtained by surveying all households in Algonquin's population base.

Report

This report summarizes the results for each question in the survey and reports on any variances in attitude or perception where significant among demographic subgroups. This survey also reports year-to-year comparisons to help identify trends and changes.

Sample Distribution and Response

Of the 1,750 surveys distributed, 222 were returned for a 12.7% overall response rate. Further delineating response rate by geography, households East of the Fox River had a 16.0% response rate, households west of the Fox River and east of Randall Road had a 14.7% response rate, and households west of Randall Road had an 11.8% response rate. A total of seven respondents did not indicate in what area of Algonquin they resided.

2021 Algonquin Community Survey

Dear Resident:

Your household has been selected at random to participate in a project that will help shape the future of Algonquin. You are one of approximately 1,750 randomly selected residents who have the opportunity to participate.

The 2021 Community Survey will be used to help the Village Board make decisions that affect our community. The results will also be used as a baseline comparison with other future surveys to track the Village's progress in meeting community needs, so we do hope you will participate.

To ensure survey results are truly representative of resident opinion, it is very important that each survey be completed and returned by an adult (anyone 18 years or older) in your household.

Participants have the ability to respond to the survey online at the link below using the Online Identification Number listed on the mailing label. Visit <https://www.surveymonkey.com/r/2021-ACS>.

We ask that you respond as soon as possible, but no later than **October 15, 2021**.

Results are reported in aggregate form; therefore, your responses will remain completely anonymous. If you have any questions about the 2021 Community Survey, please contact us at 847-658-5534.
