

Ratt Creek Culvert Repair at Harper Drive

Project Information

The **Ratt Creek Culvert Repair at Harper Drive** project will replace failed gabion baskets, install a concrete culvert base, and restore the creek slopes to prevent potential erosion and undermining of Edgewood Drive.

Work Area: Ratt Creek, located near the intersection of Harper Drive and Edgewood Drive.

Project Schedule

Construction Year: 2023

Project Details

- Replace failed gabion baskets and rocks to prevent future erosion.
- Installation of cast-in-place concrete culvert base.
- Reshape and restore the creek slope in the area.
