

Souwanas and Schuett Roadway and Drainage Improvements

Project Information

The **Souwanas and Schuett Roadway and Drainage Improvements** project will improve roadway, water, and sewer infrastructure. \$1.5 million of the project is being funded through federal grant money through the Surface Transportation Program.

Work Area: Souwanas Trail, from Sandbloom Road, and Schuett Street from Scott Street to Hubbard Street.

Project Schedule

Construction Years: 2023 and 2024

Project Details

- Rehabilitation of the asphalt using full-depth reclamation (FDR) process.
- Upsize and extend critical sanitary sewer on Souwanas.
- Replace curb, sidewalk, water main, and storm sewer.
