

Algonquin Shores Lift Station & Force Main Upgrades

Project Information

This project is the first phase of a two-phase upgrade that includes force main replacement for the Algonquin Shores Lift Station to enhance system reliability and address aging infrastructure.

Work Area: Algonquin Shores Lift Station, including the force main south from Souwanas Trail to Riverwood Drive.

Project Schedule

- **Start:** Spring 2024
- **Finish:** Summer 2025

The project schedule is subject to change.

Project Details

- Upgrading remaining 6 inch force main to 10 inch for improved flow
- Addressing aging infrastructure revealed during the Souwanas project
- Enhancing overall system efficiency and reducing service disruptions
